

BIRDS OF PREY

NORTH AMERICA'S DOWNHILL
BEAVER CREEK, COLORADO

5/4/22

Dear SPM,

We have been using the SPM/World Cup Supply Air Fence Finish Package, with Installation since 2015 for the Annual Men's World Cup Speed Events on The Birds of Prey Race Course.

WCS does an exceptional job with the Installation, Daily Maintenance and work seamlessly with the build out of the Finish Area.

The installation is always professionally done and it is something I do not need to worry about on a daily basis. It is great having that peace of mind.

Thank you World Cup Supply in helping us with our World Cup Race Production.

Ronald R. Rupert

Birds of Prey Chief of Course
